Scuola Serale di Disegno, Barre, Vt. Ai Lavoratori Italiani di Barre, Vt. Supera ancora una prova ardua e dolorosa la Scuola Serale di Disegno stata per riprendere i suoi corsi.

In questa occasione il Comitato Direttivo della Scuola—sotto la breve cervice degli amici fedeli che di questa nostra benefica istituzione operaia vigilano i primi passi, ne secondano i nobili intenti e ne promouono con abnegazione assidua lo sviluppo—convoca la colonia operaia italiana di Barre ad un pubblico comizio domenica 30 Aprile corrente alle ore tre pomeridiane al Pavilion hall per ricevere d'accordo, col consiglio e coll'ausilio di tutti i buoni, i mezzi di sollevarla una volta e per sempre dalle condizioni precarie che ne insidiano la vita e ne paralizzano i benefici.

Bisogna alla fine convenirne: la Scuola Serale di Disegno, che ha al suo attivo sette anni di esperimenti felici e di risultati lusinghieri, vive di accantonaggio, attinge le sue risorse a spendieri che ne contraddicono l'altissimo fine educativo, e non si sottraggono al sacrificio di pochi genovesi. Ed è una vergogna.

La Scuola deve bastare oggi a se stessa e la debbono sorreggere coloro che direttamente o indirettamente ne profitano, e delle proprie risorse deve diversamente degnamente liberamente.

Gli e per sottoporre alla Colonia operaia italiana di Barre questi nostri sentimenti, questa nostra irremovibile condizione, quest'ardua condizione di fatto che noi la convogliamo al meeting di domenica.

La Colonia dirà, intervenendo numerosa e sollecita, che ama la scuola, che la vuole viva e prospera, dirà come e dove potrà attingere le oneste risorse che alla sua esistenza sono indispensabili.

La Colonia potrà, rispondendo colla sua consueta apatia e colla sua consueta indifferenza al presente appello, disconoscere i benefici della Scuola e decretarne la morte.

Le sorti della Scuola Serale di Disegno sono nelle sue mani.

Pel Comitato della Scuola. Giuseppe Sassi.

CURED TO STAY CURED.

How a Barre Citizen Found Complete Freedom from Kidney Troubles.

If you suffer from backache—From urinary disorders—From any disease of the kidneys, Be cured to stay cured. Doan's Kidney Pills make lasting cures. Barre people testify. Here's one case of it: Norman B. York of 4 Prospect street, Barre, Vt., says: "Several years ago I gave a statement for publication telling what Doan's Kidney Pills had done for me, and I can now say that on account of the permanent cure they made in my case I can more highly recommend them than ever. I had been subject for six years to kidney trouble, which I think was caused by a strain. I had severe pains in my back and a kidney weakness that showed those organs were affected. If I stooped it was with the greatest difficulty that I could regain an erect position. I used Doan's Kidney Pills, which I got at E. A. Brown's, and they proved wonderfully beneficial from the start. The pains in my back ceased and the action of the kidney secretions was regulated. During the years which have elapsed there has never been the slightest return of the trouble, and I think this is good evidence that Doan's Kidney Pills cure permanently." For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

EAST BARRE.

Mr. and Mrs. Warren C. Nye Welcomed Home from California.

A company of about 60 gathered at the home of Mr. and Mrs. W. C. Nye last evening to bid them welcome to our midst again, after their sojourn in the West. They have brought with them many interesting specimens and views, which they will take great pleasure in showing their friends as they may call from time to time. Mrs. Nye was found to be absent at church, but all were cordially welcomed by Mr. Nye, assisted by Mr. and Mrs. H. B. Partridge. When Mrs. Nye returned, she greeted her gathered friends with "Well, for pity's sake!" Nevertheless the welcome was undoubtedly genuine. Games of various kinds passed the time pleasantly. Cake and ice cream were served. And so they take up life again among us, both to welcome and be welcomed.

JINGLES AND JESTS

Shickshinny, Pa.

Shickshinny, Pennsylvania, near the town of Honeyport, is very much American—a most alluring spot.

So little Peleg Wintergreen, who there attended school.

Was what is known as "up to snuff"—in other words, no fool.

Young Peleg's principal delight was coming his geography.

And nearly dying laughing at those foreigners' orthography.

For "Seegedin" sounds funny to a dweller in that spot—

Shickshinny, Pennsylvania, near the town of Honeyport.

When Peleg sighed "Slager Black" he almost had a fit.

He'd gaze at "Bodapest" and laugh uproariously at it.

He went into spasms over "Nyam-Nyam" in Sudan.

2nd burst off seven buttons when he found "Belochistan."

You should have heard him shrieking when he tackled "Timbuctoo!"

He fairly whooped to learn there was a tribe that's called "Manchu."

You see, he wasn't used to curious names, this little tot.

Of Shickshinny, Pennsylvania, which is hard by Honeyport.

"Now, Johnny," said the Sunday school teacher, "can you tell me one of the most remarkable things Moses did?"

"Yes, m'um," replied the bright youth. "He broke all of the commandments at the same time."—Chicago News.

The Way of Authority.

"No," answered Senator Sorghum; "but you can always make a fuss and say you were misquoted."—Washington Star.

The Artificial Hybrid.

She had bought a little bonnet with a pretty bird upon it.

And she perched it on her forehead one fine day.

When, to her unfeigned surprise, that gay birdie winked his eyes.

And proceeded unconcernedly to say:

"I perceive, my dear, that you have been looking at me too."

And no doubt you also think that rather fine.

But I really wish I knew if I'm just the way I grew.

And if all these wings and tails are really mine."

"Now, to my untutored brain it is very, very plain."

That I'm wearing Bluejay feathers on my right.

While upon my other wing something yellow seems to cling.

Which is very Oriole-ish in the light."

"I've an Owl-ish sort of head, but my collar tuft is red."

And there's something strangely Hawk-ish in my eyes;

Then my tail is wondrous queer—at a glance it would appear

That 'twas taken from a Bird of Paradise."

"I am somewhat grieved to say I'm constructed in a way

That reflects upon my pedigree, at least.

And I beg you'll not deem when I add, a nest of fur

Makes me feel—well, quite a little like a beast."

"Now, I've often heard it said we must evolve when dead—"

This may be an incarnation, so to speak;

But—"and here the birdie sighed—"

"I'm sorry that I died."

For I'd rather be a Sparrow than a Freak."

MAMMOTH CAVE.

It Furnished the Saltpetre For the War of 1812.

There is an interesting bit of history connected with the cave. Few Americans are aware that it helped to save the country in the war of 1812 by furnishing saltpetre for the manufacture of gunpowder, but such is the case. The powder used by Old Hickory in whipping the British so handsomely at New Orleans in 1815 is said to have been made with saltpetre from Mammoth cave. As early as 1800 a Mr. Fowler obtained, it is said, 100,000 pounds of niter from the twenty-eight limestone caverns that had then been discovered in Kentucky.

In 1806 Dr. Samuel Brown of Lexington rode a thousand miles on horseback to Philadelphia to lay before the American Philosophical society, in session there, the facts about the presence of niter in these caverns, saying that the deposits would be especially valuable in case of war with any foreign power. Brown did not mention Mammoth cave by name at that time, and the probability is, as local tradition asserts, that it was first discovered by whites in 1809 when a hunter named Houchins or Hutchins entered it in pursuit of a wounded bear. Bay and Taylor says it was first discovered in 1802, but does not give his authority. The only value set on it at first was for the nitrous acid it contained.

For this a Mr. McLean paid \$40 for the cave and 200 acres of land around its mouth. McLean sold it to a Mr. Gatewood; he to Messrs. Grant and Wilkins, who derived a fortune from the saltpetre made there during the war of 1812. The embargo cut us off from any other supply, and the output of saltpetre from this cave enabled our manufacturers to make sufficient powder to carry on the war.—New York Post.

PET ANIMALS IN WILLS.

Fortune to "My Red Horse"—Parrot Bequeathed to Queen Victoria.

A. T. Newbold, the Salford brewer, who has left his greyhound, Wildfire II, an annuity of £25, is one of many testators who have remembered their pet animals in their wills.

A farmer near Toulouse who died a short time ago left his entire estate to "my red horse." One John Spooner of Chicago bequeathed \$400 to his dog "in recognition of his sympathy and tender nursing when I was seriously ill," and the will of a Mr. Garland contained this clause: "I bequeath to my monkey, Jacko, the sum of £100 per annum and to my faithful dog, Shock and my well beloved cat, Tib, a pension of £5."

Dr. Christians of Venice left 60,000 florins for the maintenance of his three dogs, a Mr. Harper settled £100 on his "young black cat," and a Frenchman named Sonchat left his entire fortune to his tortoise.

A good many years ago an old lady bequeathed her pet parrot to Queen Victoria, with 100 guineas a year for its keep, on the amusing condition that "her majesty publicly exhibits it before her court twice a year to prove that the person entrusted with its care has not wrung its neck."—Westminster Gazette.
